**Z-MEDICA CORP NAMES MEDCO SUPPLY COMPANY TO DISTRIBUTE ITS NEW
QUIKCLOT SPORT™ & QUIKCLOT SPORT SILVER™
TO SPORTS MEDICINE & SCHOOL MARKETS**

**Latest Lifesaving Blood Clotting Technologies Transition from Military and
First Responder Markets to First Aid Kits for Athletic Trainers and School Nurses**

WALLINGFORD, Conn., June 11, 2007- Z-Medica Corporation (Z-Medica), a medical products company focused on innovative blood clotting nano-technologies, has selected Tonawanda, New-York-based Medco Supply Company (Medco) to distribute its first two products for consumers, QuikClot Sport™ and QuikClot Sport Silver™. Medco will introduce the new products to athletic trainers on the professional, collegiate, and high school levels and to school nurses, primarily in elementary and secondary schools. Designed to fit easily into backpacks and first aid kits, QuikClot Sport™ and QuikClot Sport Silver™ come in 25 gram and 50 gram ‘clotting sponges’ that rapidly and safely stop bleeding at the scene of an injury. The potentially lifesaving sponges retail for as low as \$9.99

These products are the newest versions of the original QuikClot®, which is saving lives in the military, with first responder and security markets. QuikClot® is the most widely used hemostatic first aid product available, with more than one million units deployed worldwide. The new products, available over the counter, provide a level of safety to anyone who might be at risk of bleeding injuries, including professional athletes and children. QuikClot Sport Silver™ has the added benefit of the first advanced blood clotting first aid product with antimicrobial properties to fight off infection. QuikClot Sport™ and QuikClot Sport Silver™ are based on re-engineered technology that eliminates the momentary heat spikes that were possible with improper use of the original product versions.

“As a national distributor of medical products to sports and school markets, Medco is a valuable partner for us as we deliver this lifesaving technology to consumers of all ages engaged in activities where bleeding may occur,” said Z-Medica CEO Raymond J. Huey. He added that Z-Medica’s representatives trained Medco sales associates in the use of QuikClot Sport™ and QuikClot Sport Silver™.

In developing the QuikClot® consumer products, Z-Medica's in-house product development team collaborated with Galen Stucky, a professor of chemistry and biochemistry at the University of California, Santa Barbara and with the United States Navy, which provided support for Stucky's research through the Office of Naval Research (ONR) and product testing at the Naval Medical Research Center.

Medco Director of Marketing Don Laux said, "We are excited to offer QuikClot Sport™ and QuikClot Sport Silver™ to athletic and personal trainers, coaches, school nurses and the other individuals and organizations we serve. Our goal is to offer the most innovative, quality medical supplies, and Z-Medica, through its breakthrough blood clotting technology, takes first-aid and safety to the next level."

Medco is a part of Patterson Medical, one of three divisions of Patterson Companies, Inc. It is a leader in selling equipment and supplies to athletic trainers on different levels through its Medco Sports Medicine brand (www.medco-athletics.com). Medco reaches school nurses through the Medco School First Aid Catalogue and Web site (www.medco-school.com) and various businesses via the Masune First Aid & Safety Catalogue (www.masune.com). The company distributes medical products to many organizations, including Boys and Girls' Clubs, YMCAs, and day care centers, as well as to small businesses in a wide range of industries.

About Z-Medica

Founded in 2002, Z-Medica Corporation is a medical products company focused on innovative blood clotting technologies -- hemostatic solutions that save lives. QuikClot® was developed in cooperation with the Office of Naval Research (ONR), the U.S. Marine Corps Warfighting Laboratory, the U.S. Marine Corps Systems Command and university hospitals.

It represents the first and most effective solution to severe blood loss outside the operating room setting. Z-Medica serves several global vertical markets, including military, first responder, homeland and private security, and now consumer.

In addition to the new QuikClot Sport™ and QuikClot Sport Silver™, Z-Medica manufactures and markets the original QuikClot® hemostatic agent, as well as QuikClot ACS™, QuikClot ACS+™ and QuikClot 1st Response™.

Z-Medica headquarters is located at 4 Fairfield Blvd., Wallingford, Connecticut 06492. For more information, please call (203) 294.0000 or visit www.z-medica.com.

About Patterson Companies, Inc.

Patterson Companies, Inc. is a value-added distributor serving the dental, companion-pet veterinarian and rehabilitation supply markets.

Dental Market: As Patterson's largest business, Patterson Dental provides a virtually complete range of consumable dental products, equipment and software, turnkey digital solutions and value-added services to dentists and dental laboratories throughout North America.

Veterinary Market: Webster Veterinary is the nation's second largest distributor of consumable veterinary supplies, equipment and software, diagnostic products, vaccines and pharmaceuticals to companion-pet veterinary clinics.

Rehabilitation Market: Patterson Medical is the world's leading distributor of rehabilitation supplies and non-wheelchair assistive patient products to the physical and occupational therapy markets. The unit's global customer base includes hospitals, long-term care facilities, clinics and dealers.
