

**Model#: MFS411-150**

**Available in white frame only**

**Model#: MFS402-50**

MFS versatile pulley systems have been designed to facilitate your rehabilitation needs.

These pulleys can be configured in a multitude of ways, including portable, wall mounted, single pulley, dual, 4/1 (High speed) and 2/1 options to meet a variety of rehabilitation and senior care applications. The portable units have integrated wheels allowing use in patient treatment or residence rooms in LTC.

Our quality, made in the USA pulleys are offered in several weight stack options to accommodate a wide variety of use, from frail elderly who benefit from light starting weights and increments, to heavier high speed pulley systems designed to challenge athletes.
